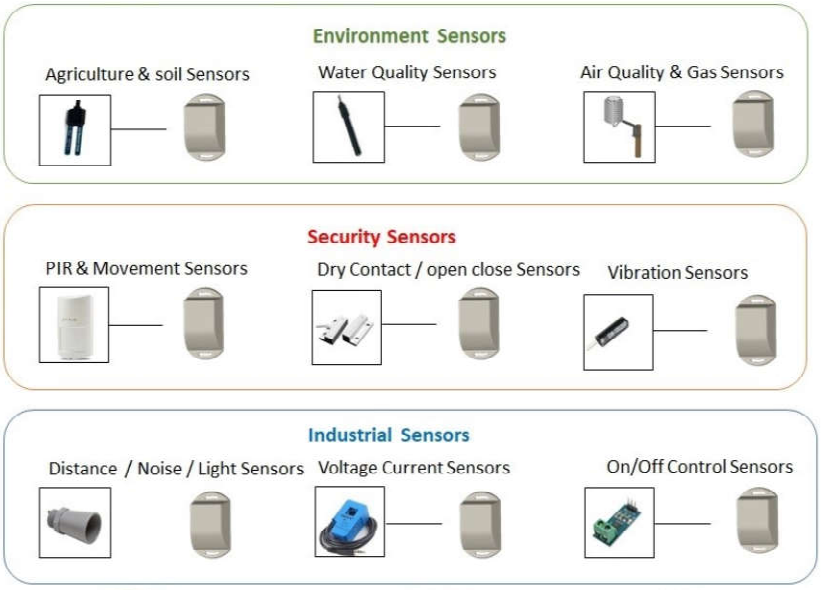
HARDWARE

MAIN FEATURES

RTLS (Real Time Location System) technology
Industry's smallest Location tag
Narrow Band Wireless, Ultra Low Power tags / Sensors 915Mhz/868Mhz
Long life battery – up to 5 years
Long range transmission (up to 400 meters)
Custom Made wireless sensors and software
Active RFID/ Narrow Band/ BLE / UHF / Cellular Wireless Technologies

SENSORS

Asset Location & Duress Location tags
Wireless Movement Sensor
Wireless Temp. Sensor
Wireless Temp. sensor + Probe
BLE Temp. Sensor
Wireless PIR Sensor
Wireless Air Quality Sensor
Wireless door Sensor



REPEATERS & GATEWAYS

Narrow band Ethernet Gateway
Narrow band UHF Repeater
4G / 3G / 2G Gateway

APPLICATIONS

SOFTWARE

MAIN FEATURES

The PowerTags Command & Control (C&C) software web interface is used for managing and controlling the data and sensors and elements, controllers and readers. Whether you manage ten sensors or ten thousand elements the PowerTags software managing, installation and obtaining a birds-eye view of remote monitoring systems easy and intuitive.

Furthermore, the system contains an autonomous rule engine that makes sure user's profile is automatically executed 24/7

SYSTEM BENEFITS

QUICK & EASY SETUP
Easily install sensors and gateway and be up and running in minutes

ACTIONABLE ALERTS
Receive timely alerts via phone, email, and sms text

LONG RANGE WIRELESS SENSORS
Narrow band wireless range for monitoring facilities up to 400 mete

LOW POWER-LONG LIFE SENSORS
Sensors with low power consumption providing up to 5-year battery life

SENSOR MAPS
Upload facility maps and visualize sensor location and readings

ANALYTICS & REPORTING
View temperature and notifications logs, plus run and schedule reports

TEMPERATURE LOGGING
Automatically records and stores temperature logs

REMOTE MONITORING
Free mobile app to access temperature status from anywhere

SECURE CONNECTION
Secured end-to-end data and privacy

WE'LL COSTUM MAKE YOUR WIRELESS SENSOR

CUSTOMIZED SENSORS
